

# JEFFREY (JEB) SONG

✉ [js2997@cam.ac.uk](mailto:js2997@cam.ac.uk)     [jeb12301.github.io](https://github.com/jeb12301)

## EDUCATION

---

|                                                                                                           |         |
|-----------------------------------------------------------------------------------------------------------|---------|
| <b>University of Edinburgh</b><br><i>P.h.D in Quantum Informatics</i>                                     | 2026-30 |
| <b>University of Cambridge</b><br><i>MASt in Mathematics</i>                                              | 2026    |
| <b>University of Washington (UW)</b><br><i>B.Sc. in Physics (Honors), B.A. in Mathematics, 3.94/4.00.</i> | 2025    |

## PUBLICATIONS

---

- J. Z. Song, H. Ha, W. W. Ho, and V. B. Bulchandani, Theory of quasiballistic spin transport, [Phys. Rev. B 112, L241408](#) (2025).
- J. Z. Song\*, G. Kishony\*, E. Berg, and M. S. Rudner, Vari-Cool: a non-unitary quantum variational protocol for simulated cooling, [arXiv:2510.09749](#) (2025). (Submitted to Phys. Rev. X Quantum)

## AWARDS

---

|                                                      |      |
|------------------------------------------------------|------|
| <b>Mary Gates Research Scholarship</b>               | 2024 |
| <b>Guy Pitzel Scholarship (Departmental Honours)</b> | 2024 |

## PRESENTATIONS

---

|                                                                                                                          |      |
|--------------------------------------------------------------------------------------------------------------------------|------|
| <b>Improving EEG calibration using electrostatic multipole moments</b><br>UW Mary Gates Undergraduate Research Symposium | 2025 |
| <b>A Theory of Quasiballistic Spin Transport</b><br>UW SPS Research Symposium for Physical Sciences                      | 2025 |

## TECHNICAL SKILLS

---

Python, PyTorch, Qiskit, Matlab, Linux (Ubuntu/Fedora), Bash/Zsh Scripting, Java, C, Lumerical, Lean.

\*Equal contribution.
